

# Pre-mortem

Feza Anaise Umutoni, Pravesh Agarwal, Zach Shunnarah

# Data Collection

- Inaccurate data/difficulty obtaining specific inventory data

# Team Organization

- Miscommunication with THRIVE representatives and the alliance
- Uncompiled project documentation (project wiki/google drive)

## Progress

- Insufficient time to collect the necessary data, in terms of curating, cleaning and analyzing
- Side tracking ---- focusing too much on data already compiled vs specific asset

## Outcome

- Problem making a user-friendly database
- Project solution doesn't contribute much to the problem
- No public facing tool
